WHY ARTEMIS SYNERGY?

- > For 16 years, our consultants have been offering our recruitment consultancy and direct recruitment services to a continuously growing client base. In the construction sector, we have built up an impressive database of around 5,200 candidates in the freelance sector.
- > In total, we have successfully placed around 225 freelance candidates with our clients since our foundation, as well as successfully placing 21 candidates in permanent positions. We also maintain close relationships with around 15 key clients with whom we work on an ongoing basis.
- > Inquiries in the area of permanent employment have been very high for years, but most customers have now realized that freelance candidates are no longer an option for project peaks or high order volumes. Artemis offers support in both areas.
